Instructions for Submitting Homework

Work Groups

1. You must work in the groups assigned by the MFE office. There are no exceptions.

2. To prevent free riding, a group can choose to leave a group member's name off the homework. In this case, that student will receive a zero for the assignment. This cannot be a surprise to the student; the group should tell the non-contributing member that their name will not be added to the assignment.

What to Submit

1. Each group should submit two files: one R script and one pdf file. These files should not be compressed in any way (i.e. as a zip file).

2. The R script should follow the template we provide. For example, the first homework has you submit a list of a certain structure.

3. The file names should be hwX-Y-Z.R and hwX-Y-Z.pdf where X is the homework number and Y is your cohort number, and Z is your group number (e.g. hw1-2-10.R is HW1 for group 10 in cohort 2).

4. We will not accept multiple submissions from an individual group.

How to Submit

1. Please upload homework via the links provided below. These links are on the syllabus as well.
